

One companion.

Four kinds of **comfort.**

A weighted sensory companion with a warm & cool comfort insert and a whole body of textures to explore. Designed with children on the autism spectrum in mind.

 **CALM & FIDGET**

One signature feel
Sloth: extra-long hugging arms that wrap around and fasten with child-safe hook-and-loop. **Red Panda:** squeezable crinkle tail and ribbed paw pads to rub.

 **TOUCH**

Textures to explore
Every animal feels different: long-pile fur, textured claws and a raised-dot patch on the **Sloth**; curly mane, silky ears, ribbed paw pads and a **waffle-knit belly** on the **Red Panda**.

 **WARM & COOL**

Chill it or warm it
A **second pocket** with its own insert: chill the reusable gel pack or warm the microwaveable, temperature-limited insert. **No wires or batteries.**

 **WEIGHT**

A hug that stays
Removable weighted pouch in the lower belly gives deep, even pressure. Double-sealed, out of reach in normal use — slide it out to wash.

Sloth

LARGE about 16 in · prototype target **3 lb**

SMALL about 12 in · prototype target **2 lb**

● **Signature:** extra-long hugging arms

Red Panda

LARGE about 16 in · prototype target **3 lb**

SMALL about 12 in · prototype target **2 lb**

● **Signature:** squeezable crinkle tail

Comfort, one hug at a time.

Inspired by a therapist. Created with love.

 **Both inserts lift out** • **outer plush is machine-washable**

Spare inserts available

Ages 3+ • Not for infants • Not a sleep product • Adult supervision with the warm insert

Not a medical device. Concept prototype — final weights, materials and age grading are subject to third-party safety testing (ASTM F963 / CPSIA) before sale.
