

Hug it. Warm it. Feel it. Squeeze it.

One weighted sensory companion, four kinds of comfort —
designed with children on the autism spectrum in mind.

(((WHERE SOWALA BEGAN

Sloth

- long-pile fur
- smooth face
- textured claws
- raised-dot belly
- sherpa arms

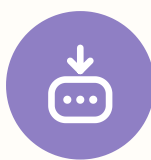

SIGNATURE FEEL
Extra-long hugging arms wrap right around you. Child-safe hook-and-loop closure, no magnets.

Red Panda

- curly mane
- silky ears
- ribbed paw pads
- waffle-knit belly
- crinkle tail

SIGNATURE FEEL
Ribbed paw pads made for thumb-rubbing, plus a squeezable crinkle tail.

01 · WEIGHT

A hug that stays

Removable weighted pouch in the lower belly: deep, even pressure. Double-sealed, out of reach in normal use — slide it out to wash.

02 · WARM & COOL

Chill it or warm it

A **second pocket, its own insert** — it never shares a pouch with the weight. Chill the reusable gel pack, or warm the microwaveable grain insert made for plush. No wires, no batteries.

03 · TOUCH

Textures to explore

Every friend feels different: curly, waffle, ribbed, long-pile, smooth. Hidden texture patches on belly, paws and ears, waiting to be found.

04 · CALM & FIDGET

Pick by feel

Sloth: extra-long hugging arms. **Red Panda:** crinkle tail and ribbed paw pads. Kids choose the animal by the feel they like.

 **Both inserts lift out** · **outer plush is machine-washable** · spare inserts available

Two friends, two sizes

Sloth and Red Panda, each in Large and Small

Large

about 16 in · 3 lb
prototype target weight

Small

about 12 in · 2 lb
prototype target weight

Weights are **prototype targets**, tuned in testing · same four comforts in every size

Comfort, one hug at a time.

Inspired by a therapist. Created with love.
Cozy, soothing, grounding — a sensory friend to hold close.
