PROTOTYPE TARGET WEIGHTS

- Large** about 16 in · 3 lb
- Small** about 12 in · 2 lb

01 · WEIGHT **A**
A hug that stays

Removable weighted pouch in the lower belly: deep, even pressure. Double-sealed, out of reach in normal use — lift it out to wash.

02 · WARM & COOL **B**
Chill it or warm it

A **second pocket, its own insert**: chill the reusable gel pack or warm the microwaveable grain insert made for plush. No wires, no batteries.

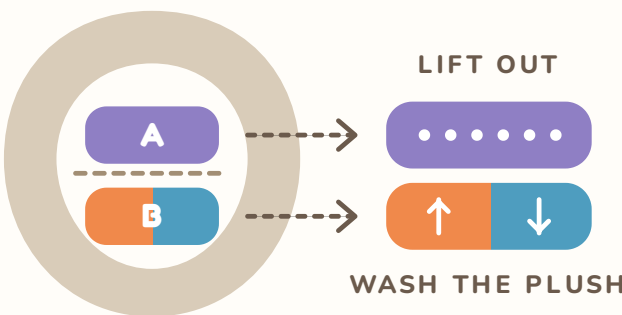

03 · TOUCH
Textures to explore

Every friend feels different: curly, waffle, ribbed, long-pile, smooth. Hidden texture patches on belly, paws and ears — it still looks like a friend.

04 · CALM & FIDGET
One signature feel

Sloth: extra-long hugging arms. **Red Panda**: crinkle tail and ribbed pads. Kids pick their friend by the feel they like best.

Inside the belly

two hidden pockets · two removable inserts

- A Weighted pouch** — double-sealed poly pellets, out of reach in normal use, lifts out to wash.
- B Warm & cool insert** — gel pack for the fridge, or a microwaveable grain insert made for plush.
- X Never one pouch** — weighted and thermal materials each get their own pocket. Outer plush is machine-washable once both are out · spare inserts available.

**Comfort,
one hug at a time.**
